OUR PROMISE:
TO CREATE THE MOST SUCCESSFUL BEAUTY

Pivot Point International has designed beauty education, tools and premium mannequins for more than 50 years. Since the start, we have sought out to ensure beauty professionals have everything they need to achieve success. As you navigate through our product lines, you will find items that are both essential and innovative. When we can’t source the best solution for our customers, we create them because we know that, just like education, your tools set you up for success.

Each product we carry is also thoroughly tested by real students and salon professionals—if it can happen in the salon, chances are it’s happened with us. We don’t carry thousands of tools like other companies because we believe your tools are not simple items to be taken for granted. We choose them with discernment and care because we don’t want to be just another place you buy things from. We are business partners who know tools are part of a beauty professional’s story—how you run your business, how you get work done, how you help people, how you practice your art.
HAIR
THE PIVOT POINT DIFFERENCE

Hair is personal and so is hair education. In order to make the most realistic, intimate hair design experience for salon professionals, manufacturers and students alike, Pivot Point has worked for decades to perfect mannequins and hair that can only be described as premium.

SO, WHY IS PIVOT POINT HAIR YOUR BEST CHOICE?

As a family company the core of Pivot Point’s business is people. We are committed to our employees’ well-being. We want to know that manufacturers with whom we partner hold the same values and ethical standards for their employees.

Pivot Point proactively requested SA8000® certification from our contracted hair-manufacturing factory to ensure the quality of goods match the well-being of the artisans who create them. The SA8000 certification affords our partners the confidence that our educational hair goods are produced in sanctioned conditions.

SA8000 certification solidifies a commitment to human rights by guarding against the use of child and forced labor, discrimination and unfair disciplinary practices, working hours and compensation.
REAL HUMAN HAIR, HAND-IMPLANTED...
A REAL HAIR DESIGN EXPERIENCE

Every unit of the Pivot Point hair collection is handmade. Many hours are required to create a mannequin or other component. The artisans use their exceptional skills to hand-implant the hair with natural parts, growth patterns and densities.

Often, people who use our hair for educational training tell us that it’s better than working with a live model because of the consistency of hair quality throughout.

All hair is disinfected, starting at hair selection and continuing through packaging, to ensure it is microbe-free. Then, the hair undergoes several chemical treatments to achieve different levels of color and/or texture, depending on the intended use. During the chemical processes, measures are taken to retain moisture and elasticity in order to preserve the hair’s human, lifelike quality.
Structure refers to the length arrangement across the curves of the head. All hair components and mannequins are identified by their length arrangements. The various length arrangements create the shape of the sculpted form. Pivot Point’s four basic forms are known as solid, graduated, increase-layered and uniformly layered forms. These forms will help you determine which length arrangement best suits your educational or salon needs.

**SOLID FORM**
Shorter exterior lengths progress to longer interior lengths. Ideal for creating “bob” and one-length hair sculptures, perming and coloring techniques. Use for graduated forms and long hair techniques.

**INCREASE-LAYERED FORM**
Shorter interior lengths progress to longer exterior lengths. Ideal for longer layered sculptures, long hair designs, perming and coloring techniques.

**UNIFORMLY LAYERED FORM**
Equal lengths consistent throughout. Ideal for medium-to-short hair sculptures, thermal and wet designing, perming and coloring techniques.

**GRADUATED FORM**
Shorter exterior lengths progress to longer interior lengths. Designed for men’s sculpture, perming and coloring techniques.

Hair design depends on the artist’s vision, and the tools needed to carry out that vision. We’ve been helping hairdressing professionals hone their craft for more than 50 years, using our knowledge of the marketplace and ever-changing technologies to develop superior design instruments.

Pivot Point tools are created by designers, for designers. All our products are carefully engineered to achieve optimum results and are thoroughly tested by students, educators and salon professionals in our corporate academies, student salons and spas. Quality and durability are always at the forefront.

Our experience helps us fine-tune and continually innovate to make or select the best tools available in the industry, forwarding the visions of tomorrow’s artists.
MATSUZAKI SHEARS
ONE OF THE FINEST SHEARS AVAILABLE IN THE BEAUTY INDUSTRY

Any hairdresser can tell you what they want in shears: Comfortable, sharp, and lasting. That’s what Matsuzaki knows how to deliver.

What started as a medical instrument company in 1898, Matteck Matsuzaki Co., Ltd. has a true understanding of what it means to perform a delicate art. Now, three generations later, this Japanese family-owned company has evolved over time to produce high-precision, quality instruments—now the finest shears available in the beauty industry.

As one of the finest shears available in the beauty industry, these high-end Matsuzaki shears are artfully crafted for comfort and precision cutting. Long-lasting durability ensures high-quality performance for professional use.

“Leo’s innovative and heartfelt advice has been a strong motivation behind our attitude in creating shears filled with pride and passion.”
– Kunihoko Matsuzaki, President, Matsuzaki Co., Ltd.

- Stainless steel cutting edge
- Blade included
PIVOT POINT’S BOHN COMBS

Developed exclusively for Pivot Point and hand-crafted with a special acrylic material to withstand excessive heat without warping or cracking, Bohn Combs are static-free and chemical resistant. Their quality design and smooth, round teeth won’t catch or rip hair, ensuring hair designers create the looks that satisfy clients.

Hand-crafted of special acrylic material to withstand excessive heat without warping or cracking

“*It instantly became one of my favorites for updos and natural-finish looks I’ve won many gold medals using it. No other comb creates the depth and texture needed for my winning styles with such ease and speed.*”

– William De Ridder, hairdressing champion and award-winning owner of the Academy William De Ridder International, Bruges, Belgium

bohn combs & bohn comb set
graphite combs & graphite set

- Made in Italy
- 6 versatile styles and sizes to meet any designing need
- Precision design ensures snag-free combing with penetrating teeth to section hair easily
- Made of durable graphite and resin composite, combs are chemical-resistant and static-free

combs

Precision and innovation
Specially designed tooth for easy parting
Projection angles (45°, 67.5° & 90°) printed directly on comb for checking design lines
Movable pins allow for precise length control
Creates perfect cuts more efficiently
New line of brushes specifically designed for hair designers to deliver high-quality performance styling:
- One-piece, tapered handles designed without seams to avoid snagging hair
- Soft-touch coating fits comfortably within hand
- Textured finger grip allows for maximum control while styling

**Round Brushes:**
- Ceramic barrel with ionic coating evenly distributes heat for shiny hair
- Heat-resistant nylon bristles produce maximum volume and shape
- Available in three sizes (measured bristle-to-bristle)
  - Medium | 2” (5 cm)
  - Large | 2.375” (6 cm)
  - Extra-Large | 2.875” (7.3 cm)

**Cushion Brush:**
- Gentle boar and nylon bristle mix
- Ideal for dangling, smoothing and finishing
- Helps spread natural oils throughout hair

- Perfect for all hair lengths and types
- Heat-resistant ball-tip bristles are ideal for smoothing and finishing

**5-piece brush set**
- Medium Round Brush CHT4GRP-MED
- Large Round Brush CHT4GRP-LGE
- Extra-Large Round Brush CHT4GRP-XLGE
- Cushion Brush CHT4GRP-CSH
- Paddle Brush CHT4GRP-PDL
One size does not fit all and in the case of rollers, Pivot Point knows that one shape does not fit all either. Our founder, Leo Passage, was one of the first hair designers to bring a new roller design to the industry with the cone-shaped roller, or what we now call the curvature roller.

He used the new roller design to help him win nearly 100 hair competitions and create designs on clients in his own salon. Since then, curvature rollers have become a must-have design tool for serious competitors and designers.
POWER. PERFORMANCE. EDUCATION.

Pivot Point’s selection of electrical tools is the hidden power behind great hair designers. All our blow dryers, irons and clippers are ergonomically correct, lightweight, quiet and geared for optimal performance for stylists at every level.

Don’t forget, we’ve put these tools to the test. Professional hair designers and students across the nation use every item we carry to ensure it will stand up to heavy use in the salon, school or on the road.

In addition to offering high-performance tools, we take an extra step by customizing our electrical kits to align with Pivot Point education. For example, our deluxe student kit features tools with innovative nano titanium technology for faster, gentler and super-shiny finishes. Our kits also include care and maintenance guides to ensure the long life of each product.

1600-WATT TOURMALINE IONIC BLOW DRYER
CHT-PPRM06
A stellar combination of power, speed and design offers both heavy-duty performance and lightweight ergonomic handling.
• Ionic generator for conditioned, shiny and healthy hair
• Powerful airflow for fast drying
• 2 concentrator nozzles
• Diffuser
• Freeze shot for setting style
• 2 speed settings and 3 heat settings
• Salon-length, 6’ cord with hanging loop
• 1600W long-life AC motor
• Removable rear grille for easy cleaning
• 2-year warranty against manufacturer’s defects

1” TOURMALINE TITANIUM FLAT IRON
CHT-PPRM17
• Tourmaline titanium-coated black plates
• Heats up to 450°F
• 10’, 360° swivel cord
• 60-minute auto shut-off
• 2-year warranty against manufacturer’s defects

WE’VE ADDED A TWIST, OR SHOULD WE SAY, 360° SPIN

A mainstay for any designer, tripods provide foundation, freedom and portability. But, we’ve added a twist, or should we say spin?

Pivot Point created the first, patent-pending, swivel base tripod. Now, designers can spin a tripod base 360° to view their work or share it with an audience without awkward lugging and repositioning. It’s the type of innovation we love: smart, simple and designed to make your life easier.

All Pivot Point tripods are made of heavy-duty materials with telescoping legs that expand to 63” tall and efficiently pack up to fit into specialized tripod duffles. Wherever your career takes you, your tripod can come too!

NEW

Base rotates 360° to view designs from all angles so that you can work in the round without moving around!

Easy-open locking system allows swivel base to rotate or lock in one place

Compatible with most Pivot Point tripods

OUR GUARANTEE

When you shop with Pivot Point, you’re also buying the assurance that we’ll be here if you need us. We stand behind the quality of our products and the prices we charge. If you’re not completely satisfied with your purchase or any part of your experience, just let us know. We are here to help.

RETURN POLICY

Hair Products
Hair may be returned up to 30 days after purchase if in original packaging and original condition. Hair is warranted to the original purchaser for the period of one year from original date of purchase, under normal use and service, against defective material or workmanship. During the warranty period, Pivot Point will replace the hair medium when returned with a copy of the original receipt, a copy or the original of the tag containing the lot number and date, and a letter describing the defect.

Books
Unopened books may be returned up to 30 days after purchase.

Kits
Kits may be returned up to 30 days after purchase if in original packaging and original condition. Any items missing from the kit will not be credited or replaced. If there is a missing item you will be charged a la carte retail price for that item. There will also be a 25% restocking fee for kit returns.

Electrical Products
For products produced by companies other than Pivot Point International, please see the manufacturer warranty information enclosed in the package and contact the manufacturer directly for further information. Pivot Point International is a distributor of these products and will not provide warranty or support for third party products.

Manufacturer’s Defect Policy
Defective goods must be reported and returned for a replacement within the first 30 days from the date of invoice.

Restocking Fees
All returned items are subject to a 25% restocking fee. To ensure prompt and efficient handling of your returns, you must obtain a Return Authorization Number (RA#) from Pivot Point International Customer Support at 800.886.4247. The RA number must appear on the shipping carton, or returns will be refused. Pivot Point is not responsible and will not assume freight charges incurred in the return of items to our warehouse or for reshipping new or replacement items unless goods are deemed damaged due to shipment or originally defective.

OTHER TERMS AND CONDITIONS
Pivot Point is not responsible for typographical errors. Pivot Point reserves the right to change the terms and conditions of sale at the Pivot Point Store at any time. All sales at the Pivot Point Store are governed by Illinois law. No Pivot Point employee or agent has the authority to vary any of the Pivot Point Store’s policies or the terms and conditions governing any sale.
